

Best Friends

Best friends lift you up so you can reach
the sky

They have patience, advice and answers
to your why's

Best friends are giants and sometimes
superhero's too

They do silly things, they laugh and can
even dry a tear or two

Best friends teach you about life each
and every day

They are the shadows that keep us from
losing our way

Best friends create eternal forever
memories

They are remembered, loved and known
as Dad to you and me
